

## REMCo non-IT RMR Communications v5.0

1 January 2009

RMR ref	Rule title	Description	Interface (All communications will be by unstructured email unless indicated differently below)
13	REMCo may lodge and accept notices on behalf of a self-contracting user	REMCo must lodge transfer requests, and accept aseXML notices on behalf of self-contracting users.	aseXML
15(4)	Identification of sub-networks, gas zones and gate point	A network operator may notify the REMCo of a new sub-network. REMCo will verify the establishment of the new sub-network, and publish an updated Appendix 1 to participants, pipeline operators and prescribed persons.	
21A	FRC Hub Certification	REMCo determines whether a participant has satisfied the FRC Hub certification criteria.	
21B	Readiness Certification	REMCo determines if participant has satisfied readiness criteria, and if so, issues a readiness certificate.	
22	GBO identification	REMCo to issue a GBO to all participants and itself (A GBO is a unique code that will be used in the GRMS, e.g. AGL)	
23(7)	REMCo to provide bulk REMCo standing data	REMCo may impose a rolling 30-calendar day limit on the number of bulk standing data requests that a participant may lodge.	
32(1)(a)(i)	Error correction notice (determining identity of previous users - transaction type REQPU)	If a current user becomes aware of an error or inaccuracy in standing data for a MIRN, the current user may contact REMCo for the identity of the previous user so that the current user may advise the previous user of the error. REMCo will provide a response in one business day - transaction type 'REQPU-RESP'.	Email to grmssupport.au@logicacmg.com and Subject Field: Unique Reference (eg. SAGAS_REQPU_GBOID_REMCO_YYYYM MDDHHMM); Contents: 1. MIRN; 2. MIRN Checksum; 3. GBO ID of user lodging request; and 4. Completion date of transfer (ccyy-mm dd).
56(5)	Request for historical REMCo standing data	REMCo may impose a daily limit on the number of historical standing data requests that a participant may lodge.	
63	Allocating MIRNs to network operators	REMCo must, in consultation with the network operator, assign a range of MIRN's to a newly registered network operator.	Telephone, unstructured email
65(3)	MIRNs becoming commissioned for the first time	REMCo to forward notice to users that the network operator will provide standing data under Rule 65(2)(a)(i) (SA only).	
73(2)	REMCo to review MIRN discovery requests and explicit informed consents (WA only)	Network operator provides REMCo with a monthly report of MIRN discovery requests.	Email. Format to be agreed between REMCo and AlintaGas Networks

REMCo Information Pack

RMR ref	Rule title	Description	Interface (All communications will be by unstructured email unless indicated differently below)
74(a)	Complete MIRN Listing (SA only)	<p>The Network Operator must update, format and deliver, via the Market Operators "Market Information Bulliten Board" (MIBB) upload facility a new complete MIRN listing in accordance with the REMCO Specification Pack and within the timeframes prescribed within the RMR.</p> <p>The Network Operator must adminster a procedure that describes the the encripted and compressed method along the password change procedures.</p> <p>VENCorp must ensure that the MIBB upload facility is available to the Network Operator for the update of the complete MIRN Listing File.</p>	Market Operators - Market Information Bulliten Board (MIBB).
85(3)	If transfer request is valid	REMCo may, for the purpose of resolving any issue or dispute in relation to the transfer request, provide the incoming user with any information REMCo receives from the current user in relation to the transfer request.	Unstructured email (for non-aseXML messages received)
103(3)	The transfer	REMCo to forward notice to users that the network operator will provide <b>standing data under Rule 103(2)(b)(i) (SA only)</b> .	
104(4)	Retailer of last resort scheme	If REMCo is notified that the ROLR scheme is invoked, REMCo will notify <b>each participant</b> .	
139	REMCo to determine whether interval meters must be fitted at a <b>basic meter site (WA only)</b>	REMCo to make an 'above 10TJ' determination where appropriate and notify the user of the determination.	
140	REMCo to determine whether a delivery point may be converted to a basic metered delivery point as a result of a reduction in gas usage <b>(WA only)</b>	REMCo to make a 'below 10TJ' determination where appropriate and notify the user of the determination.	
150	Meter reading activities by another entity	If a party other than the network operator is to undertake MDA duties, REMCo, the network operator and all affected participants must work co-operatively together to agree appropriate procedures and rule changes.	Telephone, unstructured email
175	Gate Point control systems	The pipeline operator must notify REMCo of the gate point control system <b>that it proposes to operate for its pipeline</b> .	
175(5)	Gate Point control systems (request shipper information from REMCo)	A pipeline operator may, for the purpose of consulting with shippers, request REMCo to provide the identity of shippers on both pipelines.	Pipeline operator to email any requests to market.support@remco.net.au
176(1)	Type of pipeline control system <b>(WA only)</b>	REMCo notifies the pipeline operator of the profiles referred to in Rule 200.	
185(3)	User provides information to REMCo (SA only)	A user must notify REMCo of unforeseen or material changes that will affect their withdrawal of gas from a sub-network when the user becomes aware <b>of such circumstances</b>	Telephone, unstructured email

REMCo Information Pack

RMR ref	Rule title	Description	Interface (All communications will be by unstructured email unless indicated differently below)
192(3)	If allocation instruction is invalid	REMCo notifies the ROLR administrator where the allocation method of last resort has been used to determine the user's allocation instruction.	
200 & 209	REMCo determines profiles	REMCo must make available its guidelines for determining profiles.	
216(2)	REMCo to recalculate profiled forecasts 30 minutes before the end of the third, sixth, ninth, and twelfth hours of the gas day (SA only)	If the pipeline operator cannot adjust the operation of the pipeline, REMCo may consult with the pipeline operator to adjust the pipeline profiled forecasts.	Telephone, unstructured email
239	Miscellaneous reconciliation amount	REMCo may determine a miscellaneous reconciliation amount in consultation with the network operator.	Telephone, unstructured email
244	REMCo notifies reconciliation and adjustment amounts	REMCo to notify information regarding REMCo's determination of a miscellaneous reconciliation amount.	
254(2)	Pipeline operator to inform of special circumstances (MRFC pipeline only)	After receiving information from a pipeline operator that the gas provided through the gate-point varies materially from the profile, REMCo must promptly provide this information to each relevant user and shipper.	
255(2)	Pipeline operator to inform of special circumstances (other pipelines)	After receiving information from a pipeline operator that the gas provided through the gate-point varies materially from the shippers requests for injections, REMCo must promptly provide this information to each relevant user and shipper.	
277(1)	Subscription for information	A person may apply to REMCo to become a subscriber for a sub-network for a year	Formal letter
279	Swing service providers	REMCo may enter into a swing service provision umbrella deed ("SSPUD") with a swing service provider ("SSP") other than the SSPOLR.	Formal contract exchange (as per Appendix 7)
Chpt 6	Disputes		Formal letter, written report, telephone, unstructured email
Chpt 7	Reporting and Audits		Formal letter, written reports, telephone, unstructured email
Chpt 8	Administration		Formal letter, telephone, unstructured email
Chpt 9	Rule change process		Formal letter, written reports, telephone, unstructured email

Note - The outcomes of any consultation will always be communicated in writing as a notice in accordance with RMR rule 12 or 12A. The references to the use of a telephone are to highlight that REMCo may use this medium when undertaking consultation with market participants.
